David – See below an issue we wanted to raise to you at our 11:15 re: Florida and an attached flow chart outlining their potential ESA review process and glossary of terms from Florida.

We also wanted to discuss an issue that came up in a staff call with Florida yesterday. Florida wants to submit their BE with their program package. They said they wanted to do that so that the public could comment on the BE. They had a lot of questions about how the public participates in the ESA process and whether there would be comment on the BO. My skype wasn't working properly so I wasn't able to chime in.

**Subject:** RE: Internal EPA coordination re: Florida 404 assumption

Hey everyone,

The main topic for today's internal call will be discussion of FDEP's updated flowchart and draft glossary so please review before the call if you can. I've attached a copy so you don't have to go back to look at it.

I'd also like to briefly discuss the St Joe request, though I was not involved in last week's call so I'll be looking for perspectives of those that were.

I've reached out to FDEP this morning to get agenda items for our call this afternoon but haven't heard back yet.

I don't expect any enforcement topics so Jeff, JT, Chris I'll let you determine if your time would be better spent on something else this morning.

If anyone has additional topics you'd like to discuss this morning please reply all to this email so we can be prepared to talk.

Thanks!
